

# ABOVE AND BEYOND

## Senior Systems Engineer, Aerospace Engineering, Bristol

**£30 - £45k neg.**

An exciting opportunity exists for experienced Aerospace Systems Engineers to join an expanding and progressive company.

Woodford Engineering Consultancy (UK) Ltd is a dynamic company providing Systems Engineering services to the Aerospace Industry. Our principal activities are design, development, qualification and in-service support of aircraft systems as well as involvement in related research projects.

We are seeking enthusiastic, proactive and self-motivated engineers to join our highly experienced team to support a global aerospace customer. Positions are available in the hydro-mechanical and control and indication disciplines at our new offices in Bristol.

Candidates must have a good degree in a relevant discipline as well as excellent oral and written communication skills and 5+ years relevant industrial experience.

It is desirable that candidates have experience in one or more of the following:

- Requirements Capture
- V&V
- DOORS
- Albatross
- FlowMaster
- TaMED
- Monte Carlo Analysis
- Matlab/Simulink
- AFDX / CAN / ARINC429
- FWS / PFDs / EIS / ECAM
- BITE / FQMS / WBC
- H/W & S/W development

An attractive package and exciting prospects are on offer for the right candidate. Salary and employment terms are negotiable depending on qualifications and experience.
