

ABOVE AND BEYOND

Regional Business Manager, Aerospace Engineering, Bristol

£40 - £50k neg.

An exciting opportunity for an experienced manager to join an expanding and progressive company.

Woodford Engineering Consultancy (UK) Ltd is a dynamic company providing Systems Engineering services to the Aerospace Industry. Our principal activities are design, development, qualification and in-service support of aircraft systems as well as involvement in related research projects.

The selected candidate will be responsible for the initial set-up and running of our new office in the Bristol area, functioning as part of the Senior Management Team. WEC requires all employees to operate with integrity and promotes a flexible and personable approach. It is essential that this ethos is extended to our new office.

The role requires the candidate to demonstrate relevant managerial experience and achievement, together with commercial awareness and project management skills.

Duties will include managing all local business functions with a particular focus on people, programme and operations, interfacing with customers at all levels.

The successful candidate must be flexible, self-motivated and a good communicator on every level. The ideal candidate will have a technical background in the aerospace industry.

An attractive package and exciting prospects are on offer for the right candidate. Salary is negotiable depending on qualifications and experience.
